See remarks made by Benjamin Traverse, F. R. C. S. Speaking of those diseases, and diseases arising from the excess of mercury, he states that no remedy is equal to the Extract of Sarsaparilla, its power is extraordinary, more so than any other drug I am acquainted with. It is in the strictest sense, a tonic, with this invaluable attribute—that it is applicable to a state of the system so sunken, and yet so irritable, as renders other substances of the tonic class unavailable or inturious. able or injurious.

Helmbold will remark, in conclusion, that his remedies are the result of long and careful study. The Fluid Extracts have been before the public twenty years. The sale of them in that time proves their value. Pharmaceutical I claim all mime to be, and have never patented a single one.

To dispel any impression or prejudice that might exist in the minds of many against my preparations, from the publicity given through advertising, and that I am and have been a drug gist for a period of twenty years, and more conclusively to preve this see letter from the largest manufacturing chemists in the world:

ALL STAND ON THEIR MERITS.

The Pill I have thought of offering to the afflicted for ten years.

They are now perfect, and I shall stake my time, money and fame on their effectiveness. The inviting style in which the pill itself is made, the bottle, label, wapper—all show with what care they have been prepared. After examination, no English or French preparation will show greater care, and I am really proud of them.

Instead of the nauseous-looking, carelessly prepared Pills vended generally, and put up in wooden boxes, and made generally, or offered by those having to experience as physicians, druggists or manusacturers of medicines, test the medicine offered by your obedient veryant,

PATRIOTIC SUGGESTION. CONCORD, N. July, 1876. Ordered printed. DEMOCRATIC STATE CONVENTION. CHICAGO, June 15 .- The democratic state committee of Wisconsin has called a state convention for August 28d. The call declares that the true mission of all the parties is now to deal with the practical questions of the day, ignoring those con-troversies which have been settled by the

progress of events. NEW YORK, June 15.—The Tammany sachems had several ineffectual ballots for the choice of the grand sachem and elected Cornelius Carson scribe of the council in the place of the late James Watson. FRANCE-PRUITS OF THE INSURRECTION NEW YORK, June 14 .- Paris advices compute that ten thousand persons, so far, have been executed. Insurgents in all sorts of disguises continue to be caught. will retire from service. TROCHU'S DEFENCE.
VERSAILLES, June 15.—Trochu continued before the assembly to-day his re-marks in vindication of his defence of He said individuals arrested as Prussian agents during his control of mil-itary affairs of the capital had reappeared as leaders of the insurrection, and instanced as one case that of Dombrowski. The insurrection, said the general, was

merely a continuation of war with Prussia. He concluded by condemning in vigorous terms Bismarck's mild allusion to ANOTHER ROYAL MARRIAGE. LONDON, June 15.—A marriage has been arranged between Princess Thyra of Denmark and the Duke of Edinburgh. THE GYRMAN EMPIRE-SPEECH OF THE

EMPEROR. BERLIN, June 25 .- The session of the German parliament closed to-day with a speech from the throne. The emperor thanked the members for the grants they had made for the support of the widows and orphans of soldiers killed in the war. He reviewed the legislation of the session, referring particularly to the debate of the bill incorporating Alsace and Lorraine, and said it showed that however the Germans might differ, the spriit of union was strong within them. The emperor closed his speech with the aspiration, "God grant peace to the new German empire."

ILLINOIS LEGISLATURE.

ONE MAN LEGISLATION. The vote by which senste bill 10 was defeated in the house on Wednesday, was reconsidered this morning in the house, and the bill was again put upon its passage. When the roll had been called, and the absentee's names called twice, and the names of those voting in the negative and affirmative repeated, it was discovered that there were 88 votes, one less than a constitutional majority. Then commenced on the part of the republicans a most dis-graceful attempt to get the bill passed by overriding all the rules of the house.

Mr. Cavan, a republican, had not voted. The Republican side of the house demanded that he should vote. The gentleman refused; but at length voted "no," to the disappointment of the republican side. Mr. Rice of Peoria then came in and

asked the privilege of voting, but it was objected that he was not in the house when objected that he was not in the house when the roll was called and could not vote as a consequence. The speaker ruled the objection good. Then Mr. Haines came in and asked to have his name called. Objection was made to him for the same reason, that he was out of the house when the roll was called; but despite the objections, Mr. Haines voted and the clerk recorded the vote and laid the roll call before the speaker, when the latter immediately the speaker, when the latter immediately declared the bill passed.

Then rose a great excitement. The democratic side led by Mr. Morrison, of Monroe, and Mr. Turner, of Jo Daviess, insisted that the speaker in deciding thus had taken upon himself the responsibility of the passage of the bill. The speaker, when questioned, said he did not know that Mr. Haines had been recorded. The clerk, however, informed him that it was recorded. A motion was made by Mr. Turner to strike the name of Haines from the roll; but the speaker declared the mo-

tion out of order. Thus the bill was passed by trampling upon the rule of the house which declares that no member who shall be outside the bar of the house who the question to be voted upon is stated, shall not be permitted to vote if objection be made to his voting.

ITS CURE AND ITS PREVENTIVE

Many a lummo being has passed away for whose death there was no other reason than the neglect of known and indisputably proven means of care. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they cambi adopted. DR. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they would not have falles.

Dr. Schenck has in his own case proved that
wherever sumicient vitality remains, that vitality, by his medicines and his directions for their
use, is quickened into healthful vigor.

In this statement there is nothing pressimptuous. To the faith of the invalid is made no
representation that is not a thousand times subattaintiated by living and visible works. The
theory of the cure by Dr. Schenck's medicines
is as simple as it is unfailing. Its philosophy requires no argument. It is self-assuring, self-convincing.

They soon riponed the matter in my longs, and I would spit up more than a pint of offensive yellow matter every morning for a long time.

As soon as that began to subside, my cough, for a long as that began to subside, my cough, for a long time.

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only ninety, seven pounds: my present weight is two hundred and twenty-five (75) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New-York and Beston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patents at their office, No. 15 North Sixth Street, Philadelphis, every Saturday from 9.A.M. 16.3 F.M.

Those who wish a thorough examination with the Respirometer will be charged \$5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child, Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pilis are to be taken in increased doses; the three medicines need no other accompany them: First create appetite. CONSUMPTION.

The work of cure is now beginning. The vitis-ted and mucous deposits in the boweis and in the allmentary camis are ejected. The liver, like a clock, is wound up. It arouses from its torpid-ity. The stomach acts responsively, and the patient begins to feet that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Sea-weed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chyllification is now progressing without its previous tortures. Digestion becomes paniess, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man. Schenck's Palmonte Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature can not be cheated, it collects and ripens the impaired and diseased portions of the lungs, in the form of gatherings, it prepares them for expectoration, and led in a very short time the malady is ranquished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

The second thing is, the patients must stay in a warm room util they get well; it is almost impossible to prevent taking cold when the lange are diseased, but it must be prevented or a cure can not be effected. Fresh air and riding out, especially in this section of the country, in the fall and winter season, are all wrong. Physicians who recommend that course less their patients, if their lungs are badly diseased; and well-because they are in the house they must not sit down quiet; they must walk about the room as much and as fast such extength will bear, to go us a great stay are in the house they must not sit down quiet; they must walk about the room as much and as fast such extength will bear, to go us a great good spirits—be deer make patients will. This has a great deal to do with the appealite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty is all others, is stirtle. Be. Schench's personal statement to the Faculty of his own ears was in these modest words:

"Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; then, like a drowning man catching at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system.
